

Warehouse Automation Solutions

Company Profile

Blue Star Engineering & Electronics Ltd. is a wholly owned subsidiary of Blue Star Limited, a large engineering conglomerate headquartered in Mumbai. The company has built a strong reputation for providing advanced technology products as well as turnkey engineering solutions to several industries across the country. It has evolved from being an exclusive distributor to a high-end system integrator and value-added reseller for many globally renowned manufacturers.

Blue Star E&E is a leading supply chain and warehouse automation solution provider. We specialize in helping our clients manage and optimize their supply chain operations, from order processing and inventory management to automated material handling and storage solutions for boosting efficiency & productivity. Our solutions are customized based on application and industry-specific needs. Our experienced team of professionals provides expert advice, support, and implementation services to ensure our customers' needs are met.
